

Login to DreamBox on iPad

Getting Started

This quicksheet shows how to login to DreamBox on a 4J iPad. The only way you can access Clever and DreamBox is through the Clever iPad App—*do not use a web browser or link!*

Log In to Clever

1. Look for two Apps on the iPad—“Clever” and “DreamBox”:

If you do not find the DreamBox App, your iPad may need to be reset—please follow these instructions:

<https://technologysupport.4j.lane.edu/how-to-reset-an-ipad/>

2. Launch Clever by tapping its icon.
3. There are two ways to login to Clever: by badge or by username/password.
 - A. By Badge:** You may be asked to allow “Clever Badges” to access the iPad’s camera:

Tap “Allow access”. The iPad displays permissions given to Clever—if the switch for “Camera” is off, tap it to switch it on (green):

Go back to the Clever App. The camera can now scan your Clever badge.

- B. By Username/Password:** Tap “Log in with username/password”. In the screen that appears, tap “Log in with Active Directory”:

Enter your 4J username (**do not include @4j.lane.edu**) and password and tap “Sign in”:

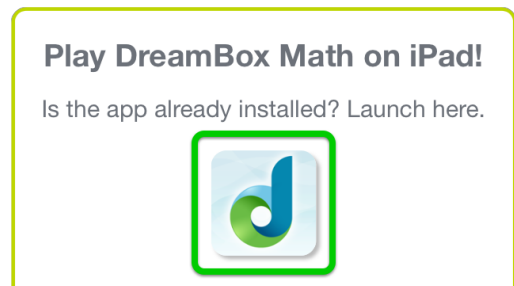

Open DreamBox

1. Find “DreamBox” in the list of Apps. Tap “DreamBox”:

2. In the screen that appears, tap the DreamBox icon:

3. In the popup that appears, tap “Open”:

4. The DreamBox App should open. You’re done! If you continue to have problems with logging in please submit a ticket at <https://technologysupport.4j.lane.edu/student-support/>
